

## Darius Cyrus Aga

### *Taking business capacity ahead*

**A**BOUT to enter his thirties, Mr Darius Cyrus Aga has an excellent academic background having studied at Windsor University in Canada. Also on technical front, he has done courses with IRI and AIRIA and is part of Young Business Leaders Forum of ACMA.

Darius has been industrious from childhood and took up small marketing projects for his family business Gold Seal

Engineering Products Pvt Ltd.

His work experience in Canada was the foundation for his achievements in India and due to his excellent academic achievements he was offered a job as a Junior Industrial Engineer in Lovat Inc. (Caterpillar Inc., Toronto, Ontario.)

Today in India, Darius has joined his family business and worked his way up

from maintenance and Industrial Engineering to heading the set-up of a new plant at Sanand. Within three years of returning to India, he along with his team has been able to revamp the production systems and processes at the 28-year-old Daman plant.

For the last two years, Darius has been working 24x7 heading a team of 25 technical people to set up a new plant. The plant was set up in a record time of eight months from acquiring land to first part-production and its inauguration was done in March this year. Currently, his focus is on installation of two more lines and increasing mixing and extrusion capacity to meet the requirements of the customers who are within 100-km radius of the new plant.
